Bookmarking using DOI lookup

1. If the details of an article are not added automatically, search for a DOI (Digital Object Identifier) number to find the bibliographic details.

2. Check for a DOI on the journal article page e.g.

   **A Review and Research Towards Mobile Cloud Computing**
   Dev, D.; Baishnab, K.L.
   2nd IEEE International Conference on Mobile Cloud Computing, 2014
   DOI: 10.1109/MobileCloud.2014.41
   Publication Year: 2014, Page(s): 252 - 256

3. Navigate to the ‘My Bookmarks’ section of UWLReading Lists and click ‘Add’, then ‘Add manually’

4. Copy and paste the DOI number into the DOI box in the edit metadata page of your bookmark. Click ‘Lookup’.

5. You should then get all the article details added to the screen. Check that all the details are correct and ‘Online Resource’ is ticked.

![Add this item to your bookmarks](image)

6. When finished click ‘Create’. This will add the book to your list of bookmarks. Click ‘Create and add to list’ if you already have a list set up.

7. To see the bookmarks go to the [http://uwl.rl.talis.com](http://uwl.rl.talis.com) and click ‘My bookmarks’.
