**Bookmarking a chapter from Books or E-Books**

You can add a chapter of a book as a resource in one of two ways:

1. **Bookmark the book.** Follow steps 1 to 3 from the ‘Bookmarking from Library Catalogue – Books’ section and use the **notes** field to direct students to read specific chapters, e.g. ‘Please read Chapter 6: Questionnaire construction’, or

2. **Create a chapter bookmark.** Follow steps 1 to 3 from the ‘Bookmarking from Library Catalogue – Books’ section then
   a) From the ‘**Add field**’ drop down menu choose ‘**Has Part** (chapter, article, etc.)’ and click ‘**Add**’.
   b) A new section tab will be opened. From the ‘Resource Type’ drop down menu choose ‘Chapter’
   c) In the title field enter the title of the chapter e.g. Chapter 6: Questionnaire construction (the word ‘Chapter’ followed by the title of the book appears as the default)
   d) If applicable, add additional fields such as author and page numbers by using the ‘Add field’ drop down menu.
   e) When finished click ‘Create’. This will add the book to your list of bookmarks. Click on ‘Create and add to list’ if you already have a list set up.
   f) To see the bookmarks go to the [http://uwl.rl.talis.com](http://uwl.rl.talis.com) homepage and click ‘My bookmarks’
